

## GTE 112 Multi Track Packing Machine

### Technical Specification

|                  |                                                                                                            |
|------------------|------------------------------------------------------------------------------------------------------------|
| Packing Range    | : 2ml to 50ml ( 2gm to 50gm)                                                                               |
| Filling System   | : Piston Filler, Cup Filler                                                                                |
| Type of Sealing  | : Four Side Seal                                                                                           |
| Packing Material | : Shampoo, Oil, Honey, Ketchup, Tea, Free Flow Powder                                                      |
| Film Size        | : 400mm-900mm width x 50mm-150mm length                                                                    |
| Film Roll Size   | : OD 250 to 400mm max. ID film reel pipe 75mm min                                                          |
| Film Roll Type   | : Laminated film in roll supported film E.g. Aluminum Foil<br>Pe, PP                                       |
| Speed            | : 50 to 100 Stock Per Minute (Varies with the nature of<br>product & Filling range)                        |
| Power            | : 4 KW 440V / AC / Three Phase                                                                             |
| Optional         | : Batch Coding Device, Batch Cutting Device Auto<br>Lubrication, GMP Model, Gas Flushing Unit Level Sensor |
| Machine Size     | : 2200mm x1700mm x 2300mm                                                                                  |
| Machine Weight   | : 1500kgs (Approx)                                                                                         |

### Features

- Simple operation and low maintenance
- All contact parts are made of Stainless steel 316
- This machine is equipped with the Ac frequency drive with the latest addition for speed adjustment.
- Photoelectric mark registration system for precise cutting and sealing of the sachet / pouches.
- Custom made to suit specific requirement.
- Top quality components and best workmanship
